Workshop Objectives

- Promote and disseminate proactive capital funding planning and analysis.
- Improve understanding of funding sources and strategies.
- Provide forum for sharing capital funding perspectives, ideas, and experiences.

Acquiring Funds for Capital Infrastructure (day)

- Save and spend later (1)
- Spend/pay as you go (1)
- Spend borrowed funds and pay later (1&2)
- Find a grant and get someone else to pay (2)

Water and Sewer Infrastructure Needs

- Serving current “unserved” residents
- Serving growth
- Regulatory requirements
- Modernization/efficiency improvements
- Protecting source water
- Replacement and rehabilitation
